

FIRST ANNUAL SALE OF REMNANTS

Beginning Monday, Oct. 19

This will be a sale of tremendous importance to the ladies of Honolulu. It is the first sale of Remnants since occupying our new store. All small lengths, odds and ends, will be disposed of regardless of cost to make room for our large new shipment about to arrive, which was the personal selection of our Mr. Sachs in New York and San Francisco. Day and night our sales force has been working to make this sale of profitable interest to our customers and here the bargains await the alert buyers.

Come early and get first choice.

Corner Fort and Beretania Streets.

THE ONLY No-Under-Shadow Light

There's nothing misleading about that heading.

The Angle Lamp

Is, in its effect, exactly like sunlight. It is, like the sun, up out of the way, and throws its clear, enjoyable light both outward and downward with no bothersome shadows to annoy or to spoil the lighting effect. There's no other light does that—no other light that has "NO-UNDER-SHADOW" But don't stop at that; look at the other features, too. With a minimum of expense, of trouble and of heat there is obtained a maximum of light and real satisfaction. Every annoying feature of gas, electricity, gasoline and acetylene is obviated. This tells the story of a great combination.

It uses ordinary kerosene (or coal) oil—one quart in sixteen hours. Its light is more brilliant than gas or electricity, with no more heat—no smoke—no odor—no "drawing up"—no removing of globe or top to light—filled while burning.

TEMPERANCE WORKERS REVIEW THE PROGRESS MADE FOR A YEAR

Half a hundred ladies attended the annual meeting of the W. C. T. U. yesterday at the residence of Mrs. J. M. Whitney, the president, on Punahou street, when the name of the organization was changed to the "Women's Christian Temperance Union of Hawaii."

A scripture reading by Mrs. Whitney started the meeting, followed by a solo by Miss Ada Whitney.

Secretary Mrs. C. H. Austin read her report as follows:

That "time flies" is a true saying which we all appreciate most fully when we come to the end of our year, and feel that another year has passed away. Again we ask ourselves "What have we accomplished during the year that has passed?" It is a hard question to answer. Only eternity can unfold the good that has been done, but we can take heart with the feeling that we have tried to do what we could though it is not what we would like to have done. We have many things to be thankful for, and many things to regret.

We regret that we have been powerless to lessen the number of saloons in our midst or in any way to stem the tide of intemperance. There seems now to be an apathy on the subject that it is hard to work against.

The different branches of the Society have been at work, and considerable success has crowned the efforts of the branch of "Savings Banks in the Schools." Our president has given a good deal of time and thought to that subject as well as the committee who have charge of that branch. One afternoon Mr. Mackintosh who has had several years experience in that line, very kindly came in and gave us his experience in the matter, and his talk quite cheered and encouraged us in our efforts. Miss Felker, principal of the Kaahumanu school, has given us very cheering accounts of her experiments, the results of which we shall probably hear from the committee.

The Anti-Cigarette committee have met with good success though our chairman has not been able to follow the work up as she would like to have done.

The Literature committee has been busy distributing literature on temperance. I am sorry to report that the chairman, Mrs. Westervelt, has been ill and quite unable to do any work for a number of months so that the work has devolved upon Miss Johnson, the other member of the committee.

The progress of temperance education in the schools has been reported from time to time and discussed in the meetings. The teachers have taken hold of the work with a good deal of interest and much has been done in that line. The Flower Mission was given up in January. The work is still carried on though it is not under the auspices of the W. C. T. U.

The April meeting was given up to the discussion of "Women's work and what women can do to raise the standard of morality and to ameliorate the evils of mankind." It was thought at one time that women were not capable of organizing and carrying on charitable work successfully, but they have shown themselves equal to the task, and are conducting many associations with success. The W. C. T. U. outranks all others in numbers and scope as it reaches out to all part of the world, and turns its attention to every phase of work that has for its object the uplifting of humanity.

The meetings have been held every month, and have been full of interest and co-operation of all the women of the community of whatever creed or denomination. The work belongs to all women who desire a country that is desirable to live in and safe to bring up children in.

Let us look around and see what is being done in other places. In the fields of legislation by means of a bureau, liquor selling at the immigration stations has been prohibited. At first the officials opposed it but since it became law they have faithfully carried out its provisions. As a consequence of this discussion liquor selling was prohibited in the Capital.

The bureau worked with the Anti-

Saloon League and the W. C. T. U. to hold and fortify anti-canteen legislation. Earnest efforts of interested lawyers to repeal the bureau's divorce law for the Capital were thwarted. The bureau also received the thanks of the National Humane Society for its effective part in defeating, after it had passed the House, a cruel act to extend from 20 to 40 hours the time cattle might be carried on trains without watering. The exclusion of illiterate immigrants was worked for but failed in the Senate.

The McCumber bill to shut out liquor from soldiers' homes will be the next step for all reformers to urge in the movement to suppress all government liquor selling. "One of the bureau's greatest legislative achievements was in the Pennsylvania legislature when a bill to legalize the Saratoga type of race gambling was defeated."

"The two worst foes to progress are in our own ranks; the man who thinks we are doing well enough and the man who believes that conditions are so bad that nothing can be done. Let us tell out the facts unreservedly, and the first man will be aroused; while the second man will be encouraged, not by satisfactory progress, but by this fact, which is the true ground of the reformer's hope next to his faith in God, that moral reform wins wherever and whenever Christian citizens make a fight."

I cannot close this report without referring to our sister and earnest worker in the temperance cause, Miss Mary Green. She closed her earthly journey with the close of the last fiscal year so that the annual meeting naturally and fittingly took the form of a memorial, the address of the president being a tribute to her worth and a history of her work in the temperance cause for many years. We have missed her bright face and genial smile in our meetings.

The Band of Hope boys will surely feel her influence for many years. We miss her monthly reports. Her memory will ever remain green in the hearts of her W. C. T. U. sisters and co-workers. Miss Willard, our great leader, was not forgotten at the meeting in February, that month being the anniversary of her departure to her home above. The meeting was given over largely to reminiscences of her life and work, extracts being read from Miss Gordon's book, "The Beautiful Life." How true it is that "Blessed are the dead who die in the Lord, for their works do follow them."

Corresponding Secretary Mrs. E. W. Jordan presented her report. Twelve letters from secretaries of state societies had been received and a report of the local society had been sent out. The annual report had been sent to the National W. C. T. U. Miss Felker had greatly aided the temperance movement, having prepared a special list of questions for the summer school relative to the effect of alcohol on the body. During the year an appeal had come from Anthony Comstock of New York for aid in the suppression of vice in New York. The society had contributed. Hawaii's money was the first to be received.

Mrs. Whitney stated that an effort was being made to get Comstock to come here.

Treasurer Mrs. Lydia B. Coan reported, showing \$112 receipts for the year. Total fund amounted to \$115.11. The year's expenditures were \$55.18; cash balance was \$59.92. Treasurer's book for seventeen years showed about \$7,500 receipts. Twelve out of sixty-five original members were dead.

Reporting for the Hilo branch, Mrs. Austin said that not much work had been taken up during the year.

Reporting for the committee on scientific temperance instruction, Miss Gertrude Whiteman said the work in the schools is progressing exceedingly well. Special effort was directed toward eradicating principles of intemperance taught in the homes of children. Teaching of temperance in private schools was up to standard. Japanese are working among Chinese who are not making much progress for temperance.

Each of the states had passed laws.

Women's Headaches

542 1-2 Congress Street,
Portland, Maine, Oct. 17, 1932.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pain would shoot through my back and sides and I would have blind headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering agonies I usually did and soon became regular and without pain.

Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Mrs. Wilhelmina Snow
Treasurer, Portland Economic League.

Headaches are the danger signals of coming disease. Both men and women suffer headaches, but medical heads fall only to the lot of women and is the unerring sign of irregular menstruation and bearing down pains. Completely prostrated by nine months of suppressed menses, blinded by headaches and racked with pain Mrs. Snow was a case in hopeless because this great remedy cures permanently nineteen out of every twenty cases and never fails to benefit a case of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, try Wine of Cardui and try it now. Remember that headaches mean female weakness. Secure a bottle of Wine of Cardui today.

All druggists sell \$1.00 bottles of Wine of Cardui.

WINE of CARDUI

A Heavy Balance Favors Electricity

COMFORT—Lack of annoyance with dirty wicks and oily lamps. SAFETY—No child or pet animal can upset an electric globe and start a fire. CLEANLINESS—No smoked ceilings or accumulated lampblack on walls and picture frames. Let us give you an estimate.

maid Mrs. Whitney, compelling the teaching of temperance in schools.

Work of the Flower Mission was reported on by Mrs. Austin. This work was abandoned in January but will be resumed. Forty or fifty bunches of flowers had been distributed weekly to hospitals and the prison.

School Savings Bank.

Mrs. H. W. Rietow, superintendent of school savings banks, reported as follows:

Your superintendent has not been able to do justice to this department as press of other business has occupied her time, but Mrs. Brown, her assistant, has done good work; visited many schools and felt much encouraged by the interest taken, but owing to ill health was obliged to retire.

Since the opening of the fall schools I have had the pleasure of visiting the Royal School, and found the Rev. Mr. Mackintosh, the principal, much interested in the Banking System. It has been carried on in this school for a number of years and though not using our system the results have been the same, and he finds that it requires but very little of his school time. At present he has about fifty (50) boys who are depositing in the bank. Some of his old pupils now have homes of their own, and attribute their success to the early teachings received at the Royal School. But a few weeks ago, one of his old pupils stopped him on the street to say that he had made the last payment on his home. We have now placed a few supplies in this school and hereafter the boys will use our Scholars Copyright Cards.

A visit to the Kaahumanu School, Miss Felker principal, found her doing good work among her pupils. In their paper, "Maile Lehua," of June we find the names of twenty (20) of her pupils who have commenced to deposit money in the Savings Bank, while the same paper of this month gives a list of fifty (50), an increase of thirty (30) over last year's work. One of the boys is now paying his way through Punahou Preparatory with the money saved last year, and another expects to enter the same school and pay his expenses with money he has saved.

As a good work commenced is sure to grow, we are hoping for grand results this coming year.

As Mrs. W. D. Westervelt was ill Miss Johnson presented the report on temperance literature. Thousands of pamphlets had been sent out. "A History of the Temperance Movement in the Hawaiian Islands," by Mrs. Whitney had also been distributed.

Mrs. Gulick reported that the committee on "Unfermented Wine in Churches" found nothing to do.

Mrs. Elizabeth Waterhouse gave an interesting account of the international meeting of the W. C. T. U. in Geneva, Switzerland, which she had attended.

After the nominating committee had reported the following list of officers, being the same as those already serving, light refreshments were served and the meeting adjourned.
